Located near Port Sheldon St.
and US-31 in Holland

Students should come prepared to weld the first night of class appropriately dressed in leather boots, pants (preferably cotton) and safety glasses.

"My instructor was great at giving us details about how to adjust our mistakes and gave me the confidence to do this class."

—Marquis G.

"The best thing about this course was learning what to look for in a good weld and what materials to use."

—Eric A.

"I enjoyed the instructor's ability to teach in so many different aspects. I liked how personable they were as well. He made class super enjoyable."

—James C.
